

At home

PORT SUNLIGHT RIVER PARK

Nature Hunt

SPRING 2020

We thought you might like to try this fun activity while you are with your family at home, in your own garden or backyard.

You can do this Nature Hunt on your own or with an adult and challenge yourself to find or spot as many items as you possibly can.

The rules are simple - if you find an item you can tick it off the list!

You don't need to touch the items, especially the bumble-bees and remember to stay safe at all times.

You could even ask a grown up to take a picture of you next to your find.

Something Green

Butterfly

Something blue

Yellow or white flower

Snail

Something red

Bumblebee

Something that smells

Ladybird

A bird

Woodlouse

Pink flower

Worm

Slug

Blossom on a tree

You don't have to find all of the items in one go, you could split the list up and try to find the others another day. We would be very interested to see your finds and you could post them on our Facebook page or tweet your pictures to us on Twitter.

Thank you for taking part!
